TRADE WITH

An Interesting Subject in View of Recent Legislation

EXPORTS

Figures by the Bureau of Statistics Showing How Trade With Islands Has Been Distributed Among Chief Commercial Nations sociation practically amounts to with-

Washington, July 11.-Legislation just enacted for closer commercial re-lations between the United States and the Philippine Islands, lends especial interest to a statement of the commerce of those islands compiled by the bureau of statistics from the summary of the commerce of Philippine Islands, prepared in the bureau of insular affairs of the war department. It shows the total value of imports into the Philippine Islands in 1908 as \$29,186,120. Merchandise imported free of duty in connection with the construction of the rallway systems of the Philippine Islands, amounting in 1908 to \$1,747,312, and erchandise imported for the use the government, are not included in this total of \$29,186,120.

The official figures of the United States government of exports to the southern trip next fall may be ex-Philippine Islands in the calendar year tended. Strong efforts are made by 1908 show the total value of all merchandise declared for exportation to stop a few minutes for car-end recep-the island,s \$,906,697; while the official figures of imports from the Islands, exclusive of government free entries and supplies granted free ention of the railway systems of the Philippine Islands in the same calendar year are but \$5,101.836, the discrepancy occurring chiefly by reason of the fact that the Philippine figures do not include supplies granted rece entry in connection with the con-struction of the railway systems of the Philippine Islands and free en-

tries for governmental use.

The principal imports are corton manufactures, \$7,188,672, of which gencies, \$550,720 was from the United States; rice, \$5.552,571 of which none came from the United States; iron deel manufactures, \$2,009,306 of which States: flour, \$943,022; of which \$520,-923 was from the United States; animals, \$821,049, of which \$320 worth night. Se was from the United States; mineral attending. olls, \$822,335, of which \$645,834 was from the United States; coal, \$597, 507, of which none came from the SUNDAY BASEBALL tures of \$557,919, of which \$410,500 was from the United States; spirit wines and liquors, \$545,737, of which \$120,791 was from the United States. vegetabels, \$539,790 of which \$66.1'1 came from the United States; paper and manufactures of \$475,561, of which \$148,188 was from the United States fibers and manufactures of \$439,952 of which \$4,037 was from the Unite States; chemicals, drugs, dyes and medicines, \$413,378, of which \$102, 74 came from the United States: Wo and manufactures of \$378,952, of which \$183 574 came from the United States; fish, \$319,036, of which \$94,474 was from the United States.

The exports in 1908 amounted to \$32,601,072, the principal articles being hemp, \$16,501,956, of which \$7,-797,926 went to the United States; copra, \$6,058,886, of which \$220,892 went to the United States; sugar, \$5,-703,641, of which \$1,966,166 went to the United States; tobacco unmanu-factured, \$1,708,756, of which none went to the United States; manufactures of tobacco, chiefly cigars. \$1,-117,286, fo which \$18,748 went to the United States; all other articles, \$1 .-510,547, of which \$447,023 worth went to the United States. The imports, by principal countries,

stating them in order of magnitude, were in 1908—from French East In-dies, \$5,541,543; United Kingdom, \$5,-522,678; United States; \$5,101,836; Australasia, \$2,256,685; China, \$2,102, 506; Japan, \$1,328,172; Spain, \$1,261 444; British East Indies, \$865.871 France, \$800.511; Switzerland, \$682 241; Hongkong, \$423,811; Belgium \$359,925; Dutch East Indies, \$283,834 and Slam, \$281,900. The exports, stated in order of magnitude, were in 1998—to the United States, \$10,540,-755; United Kingdom, \$7,642,442; France, \$4,320,761; Hongkong, \$2,587,-109; Spain, \$1,857,612; China, \$1,504,-833; Belgium, \$829,428, and British East Indles, \$740,009.

LIGHTWEIGHT CHAMPIONSHIP. Freddie Welsh Will Go After Young Josephs, the Britisher.

New York, July 11.-A battle will New be fought in England tomorrow night which will decide who is the legitimate lightweight champion of that country. Freddie Welsh, the clever English boxer, who defeated a great many good lightweights on this side of the Atlantic during his long stay here, is to meet "Young Josephs," the present holder of the title, for twenty Hughes and Sweeney.

rounds for a purse of \$2750 and a side bet of \$1000. So confident are the officials of the National Sporting club of London that Weish will win that they have signed him to fight Johany Summers for twenty rounds purse of \$5500 on October 18 for the ightweight title. Lord Lonsdale will offer a gold and silver belt to the winner, which will be the property of the winner for good if he defends his title successfully in four fights.

ENGLISH QUITTERS.

Australian Criticism of English Tennis
Association.

New York, July 11 .- A dispatch from Sydney, Australia, says: "The action of the English Lawn Tennis association in accepting American's guaran-tee of £400 for the preliminary round of the Davis lawn tennis cup competition to be played in that country has been bitterly criticised here, and the refusal to offer America a guarantee for the match to be played at Wimbledon is described as parsimonic "The Americans came over here without a guarantee for the last contests and received £500. The English Lawn Tennis association does not appear to recognize the pecuniary posilities of a tour in Australia by a

class team. Such a tour, so far from

Lack of Commercial Unity in the Inland System

POSSIBILTIES

A Letter by Commissioner of Corporations to President Taft Suggesting Intelligent Improvement of Country's Waterways.

Washington, D. C., July 11.-Lack f practical and commercial unity in he entire inland water system of the United States is the principal text of Part I of the report on Transportation by Water, now submitted to the presdent by Herbert Knox Smith, com missioner of corporations of the department of commerce and labor. The commissioner dilates in his letter of transmittal upon the facts that while the United States has altogether a total of about 5800 miles of river navigation of six feet depth and over and more than 2000 miles of canals, these totals are broken up into a large July 11 -President of different depths and different con-Taft's itinerary on his western and ditions, and that the diverse nature of the floating equipment increases this lack of organization. Many vessels are built for special traffic or local conditions and are thus often not "interchangeable" over different, stand to the whole transportation sys-tem of the country. While waterways are subject to many limitations

this condition. "Through" freight constitutes a great part of the country's traffic. A reasonable share of such through Kansas City. July 11.-Two men the water system. Inland waterways will be through traffic. For the rail system of the country is standardized, phy-

to handle through freight. an extreme case of waterway decline. About 4500 miles of canals have been constructed. Over one-half of this mileage, costing more than \$80,000,000, ias been abandoned, and canal traffic (excepting that of some short ship canals) has steadily decreased.

The report also calls attention brief-by to the very unsatisfactory condi-tion of water terminals (to be treated more fully in another part of the report, now in preparation), a matter of the highest importance in transportation. Terminal improvement on waterways is one of the first requirements, and is entirely possible.

It is noted that European countries have in many cases distributed the localities in some ratio with the special benefits received, while very little of that sort has been done in this the steady advance of steam over sail power, and the tendency toward corporate ownership of steam tonnage, select a meeting place. especially the larger vessels. In 1906 the average size of vessels owned by to see Carnegie's great gift to the obindividuals was 113 tons, and by corporations 526 tons Operating exenses, so far as obtained, averaged about 80 per cent of the gross earn-ings. The lowest ratio of operating ELY'S FORFEIT PUT UP costs was on the bulk cargo vessels of the Great Lakes, the highest that of the packet lines on the Mississippi

system and Southern rivers. This report will be of great value in the present movement for an intelligent and effective improvement of country's waterways. It points out the possibilities of water transportation, the limitations existing thereon, the reasons for their present inefficiency, and the lines along which action toward improvement can properly be taken. It demonstrates, fin-ally, the necessity of dealing with the waterways under a broad and comprehensive plan rather than by localitles and sections.

SIXTH GLIDDEN TOUR.

Thirty Automobiles Will Leave Detroit This Morning.

Detroit, July 11.-Thirty automobiles were packed tonight in Cadillac square to await the signal for starting at minute intervals at ten o'clock Monday morning on the sixth Glidden tour. Each repair made on any ma-chine during the 2646 miles to Kansas City via Chicago, Minneapolis and

The Heavy Registration For Indian Lands in the North.

Spokane, Wash., July 11.-"If we mpare the number of claims to be entered with the number of persons who will register for Indian lands in the Flathead, Coeur d'Alene and Spokane reservations, July 15 to August 5, the chance for getting a homestead Alcorte. is about one in 100. I have prepared for 100,000 registrations at each of the three reservations, where there are probably not more than 3000 claims to be distributed."

James W. Witten, superintendent of the opening and sale of government lands, said this on his arrival in Spokane, after looking over the Flathead reservation in western Montana. He will also visit the Coeur d'Alene reserve in northern Idaho and the Spo knne in eastern Washington, after-ward going to Coeur d'Alene, where 14 to August 20. The drawing for the three reservations will begin at Coeur d'Alene on August 9 and continue until all the lands set aside are distributed by the government lottery plan.

"We have received at Washington, D. C., an average of 3000 letters a day since June 1," said Mr. Witten, "and these cover all parts of the United ator feld, perhaps attacked by outfreight is essential to the success of States, Canada and Mexico. There laws. \$806,109 was from the United States; meat and dairy products \$1,955,355, of which \$208,546 was from the United States; were killed, a third had his legs both cannot prosper generally on merely local traffic.
